TALON GLOBAL

POLICY

Integrated Policy Statement

Talon Global builds and runs compliance for organisations that need it done properly, through the Talon CO compliance platform and Talon Evolve services. One management system governs how we work, built to ISO 9001, ISO/IEC 27001 and ISO/IEC 42001.

WE COMMIT TO

01 Deliver what we promise to our clients, on time, and act on what they tell us.

02 Protect the information our clients trust us with, and every record that proves their compliance.

03 Keep a person in charge of every AI decision, and assess AI's impact on people before we release it.

04 Meet the legal, regulatory and contractual requirements that apply to us and to our clients.

05 Lead with integrity, set measurable objectives, and keep improving our services and our management system.

This statement summarises our Quality Policy (TG-QUA-POL-001), Information Security Policy (TG-ISM-POL-001) and AI Policy (TG-AIM-POL-001), each published in full on talon.ae. It applies to everyone who works for or on behalf of Talon Global and is reviewed with them at least once a year.
